

REVISED 30-DAY REELS PLAN • V3 • THE WAKE-UP EDITION

The IT Guy Who Woke Up.

Your new signature: a life jolt — a scolding, a pressure, a wake-up call — that hard-cuts to your real sudden wake, then the day begins. Egg retired. Relatable titles + captions on every reel, ~14 shots each.

Built for [@mahe_r.eddits](#) • 30 reels • jolt-wake signature

— Your new signature: the jolt-wake

The raw egg is gone. Your recognition is now the wake-up: a relatable life jolt → your real eyes-snap-open wake → the reel starts.

How the signature works: open on a jolt (a boss in a dream, a countdown, ‘another year, same you’), then HARD CUT to you bolting awake — hand on chest, eyes wide — then into the day’s plan. It says, in one second, ‘I’m the tired IT guy who decided to change.’ The ⚡ days (1, 8, 15, 22, 30) are your signature-wake cornerstones; the separate Hook-Prompts PDF gives you 30 different jolts to rotate so no two openings feel the same.

Tone: every jolt lands on resolve — ‘not this year,’ ‘watch me,’ ‘enough.’ Wake-up-call energy, not dread. That’s what gets saved and shared.

Shooting rules: vertical 9:16, 4K 60fps • jolt + wake in the first 1–2 sec • a cut every 1.5–3 sec • natural window light • original voiceover or Instagram in-app Sound Collection only • post from a Creator account. Mix in Gemini Omni for the jolt/dream shots (SynthID-watermarked) and shoot the real results yourself.
