Avula Maheswar Reddy

Phone: +91 6304037560 maheshavula0366@gmail.com

Website LinkedIn GitHub

A committed and meticulous entry-level Cybersecurity Analyst, ready to leverage hands-on cybersecurity expertise within a fast-paced Security Operations Center (SOC). Driven by curiosity and a passion for continuous learning, eager to contribute to a security team in a real-world environment.

Education

Veltech University, Chennai — *B.*Tech*(*Cybersecurity*)* August 2022 – June 2025

Govt Polytechnic, Proddatur — Diploma(CSE) July 2019 - June 2022

Sri Bashyam Public School, Kadapa — SSC August 2018 – April 2019

Hands-on-Experience

Incident Investigation and Response

LetsDefend Platform

- Gained practical experience in investigating and responding to security incidents using a simulated Security Information and Event Management (SIEM) platform.
- Analyzed and triaged security alerts, performed root cause analysis, and executed appropriate response actions. Developed a solid understanding of incident detection, analysis, and mitigation techniques.

Skills

Cybersecurity: Networking and Network Security, Log Analysis, Security Monitoring, Risk Management, Asset, Threat and Vulnerability Management, Threat Modeling, Incident Investigation and Response, Cryptography, NSIT CSF, malware analysis,

Programming Languages: Python, SQL, Assembly Language (GAS - GNU Assembler)

Operating Systems: Windows, Linux

Security Tools & Technologies: Port Scanning(Nmap), SIEM Tools (Splunk) Intermediate, Network Analysis Tools (Wireshark and Tcpdump), IDS, IPS, EDR, XDR, Vulnerability Scanners (OWASP ZAP), Sandboxing Tools (Any.run, VirusTotal, Hybrid-Analysis)

Soft Skills: Excellent Communication, Report Writing, Analytical and Problem-Solving, Attention to Detail, Ability to Work Under Pressure, Team Collaboration, Continuous Learning and Adaptability

Projects

1. Detection of Malware using Machine Learning Based on API calls | Link
2. Incident and Investigation Response | Link
3. Password Strength Checker Tool | Link
4. Documenting a security audit and compliance check | Link
5. Linux fundamentals project series | Link
6. SQL fundamentals project series | Link
7. Network Traffic Analysis using tcpdump and Wireshark | Link
8. Phishing email investigation and Incident Response | Link
9. Importing and parsing security logs using Python | Link

Certifications

1. Google Cybersecurity Professional (Coursera.com) | Link — November 2023
2. ISC2 Certified in Cybersecurity (ISC2.com) | Link — May 2024
3. SOC Analyst Learning Path (LetsDefend.io) | Link — February 2024
4. Malware Analysis Skill Path (LetsDefend.io) | Link — February 2024
5. Introduction to Network Analysis (Securityblue.team) | Link — January 2024
6. Cybersecurity for Students (LetsDefend.io) | Link — December 2023
7. CCNAv7 Introduction to Networks (Netacad.com) | Link — April 2023

Achievements

1. **2nd Prize – CYBERCHALLENGE 24**

   Organized by Veltech University, 2024

   - Secured 2nd place by effectively solving complex cybersecurity problem statements.
   - Demonstrated strong analytical skills and quick problem-solving abilities in a competitive environment.

2. **3rd Prize – IDEA CONTEST FOR A SECURE CYBER SPACE 24**

   Organized by Vletech University, 2024

   - Awarded for the innovative idea "Detection of Anomalies with Behavioral Analysis Using Machine Learning."
   - Developed a concept focused on leveraging machine learning to identify unusual behavior patterns for enhanced cybersecurity.
